

State Fiscal Year 2021-22
Governor's Approved Budget Allocation
Overview of Programs, Funding, and Allocation Methodologies

This Exhibit describes the Department of Health Care Services' (DHCS) allocation methodologies and programs for the State Fiscal Year (SFY) 2021-22. For complete information on the terms and conditions of all funds and programs, please refer to your county's Performance Contract and SFY 2021-22 SABG County Application.

FEDERAL TRUST FUNDS

The U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (SAMHSA) provides Federal Substance Abuse Prevention and Treatment Block Grant (SABG) funds to states. The block grant program number is 93.959 in the Catalog of Federal Domestic Assistance. While SAMHSA has not officially released the 2022 block grant award notice, DHCS presumes the 2022 SABG award will be the same or similar to the 2021 SABG award.

Substance Abuse Prevention and Treatment Block Grant Award

The SFY 2021-22 Budget Act Allocation includes funds from the 2022 SABG Award. SABG funds normally become available on October 1, but in recent years, SAMHSA has delayed providing the notice of award. The allocation presumes the 2022 SABG Award will continue to be funded at the same or similar level as the 2021 SABG Award.

Effective January 2019, DHCS implemented new reporting and payment processes for which the counties will report non-cumulative expenses for each award through a SABG Invoice (formerly referred to as the Quarterly Federal Financial Management Reports). (See [MHSUDS Information Notice 18-057.](#)) The County's Performance Contract and Applications will address the new requirements, which include payments based on actual expenditures. SABG Invoices and supporting detail will be due 45 days after each SFY quarter.

SABG funds are allocated to counties to provide program funding for categorical areas of need. Only Discretionary funds may be expended on programs supporting other areas of need identified by the SABG Set-Asides. Set-Aside funds shall only be expended on those specific areas and cannot be used for other programs unless specified.

SFY 2021-22 SABG Discretionary – \$148,113,846

SABG Discretionary funds provide for needed substance use disorder treatment, prevention, and recovery services, including services to specific populations. Those populations include youth and pregnant and parenting women. In accordance with United States Code (U.S.C.), Title 42, Section 300x-22, SABG Discretionary funds may be spent on planning, carrying out, and evaluating activities to prevent and treat substance use disorders. For counties with populations less than 40,000, DHCS

continues the SABG Exchange Program that allows them to exchange SABG Perinatal Set-Aside and SABG Adolescent and Youth Treatment (AYT) funds for SABG Discretionary funds. For a description of the SABG Exchange Program, please refer to Exhibit C, Part 1. In an effort to assist counties in spending down their allocation amounts for SFY 2021-22, each county's Discretionary amount has been slightly reduced to allow for a corresponding increase to each county's Primary Prevention Set-Aside amount.

SFY 2021-22 Prevention Set-Aside – \$57,848,095

U.S.C. Title 42, Section 300x-22(a) requires the State to spend a minimum of 20 percent of the total SABG Award to California on primary prevention services. For SFY 2021-22, California continues to prioritize prevention, which is defined as strategies, programs and services directed at individuals who have not been determined to require treatment for a substance use disorder. As a result, DHCS continues to allocate each county's Primary Prevention Set-Aside amount to equal 25 percent of their total SFY 2021-22 allocation. The increase in county Primary Prevention Set-Aside from 20 percent to 25 percent is part of an effort to ensure that California meets federal requirements, particularly those concerning prevention spending. DHCS is not accepting requests to adjust SFY 2021-22 SABG Primary Prevention Set-Aside at this time.

A county's spending of their allocated primary prevention funds is integral to meeting federal SABG spending requirements and aligning with California's priorities. Counties must have an approved and active prevention plan that adheres to SAMHSA's Strategic Prevention Framework. The plan identifies priority areas and selected strategies, based on evidence where applicable, that will best address the priority areas and populations being served. Strategies may consist of both individual- and population-based services using one or more of the Center for Substance Abuse Prevention's six prevention strategies: Information Dissemination, Education, Alternatives, Problem Identification and Referral, Community-Based Process, and Environmental.

SFY 2021-22 Friday Night Live/Club Live – \$1,032,000

The Friday Night Live (FNL) program is a youth development program, designed for high-school youth and designed to prevent alcohol and other drug use. As an extension of FNL, Club Live (CL) is directed toward middle school-aged students. Also included are FNL Kids, focusing 4th through 6th grade youth, and FNL Mentoring, which co-engages middle and high school-aged students. The FNL/CL funds are combined into a single allocation and all four programs can be funded with FNL/CL funds, as well as additional SABG Primary Prevention Set-Aside or Discretionary funds. DHCS will allocate \$1,032,000 in combined funding specifically for these programs. The individual county allocations are based on the SFY 2020-21 allocation level. Twelve counties have elected not to participate in this program: Alpine, Del Norte, Imperial, Inyo, Kings, Lake,

Madera, Merced, Modoc, Mono, Plumas, and Siskiyou. Any unused budget authority will be held in reserve for use by the DHCS.

SFY 2021-22 Perinatal Set-Aside – \$17,057,843

Perinatal Set-Aside funds are used for women-specific services for treatment and recovery from alcohol and other substance use disorders, along with diverse supportive services for California women and their children. Perinatal programs, as part of the Perinatal Services Network, must meet the requirements set forth in the Perinatal Practice Guidelines (PPG) SFY 2018-19. Counties must use these funds to increase or maintain existing perinatal treatment capacity and programs. Counties may also use these funds to add new perinatal services or programs or change existing programs. See the [Perinatal Practice Guidelines](#).

Perinatal Set-Aside funding is a component of the SABG Exchange Program. DHCS is allocating SFY 2021-22 SABG Perinatal Set-Aside funds based on the SFY 2020-21 final allocation level. For more information on how the Exchange Program affects a specific county's Perinatal Set-Aside, please refer to Exhibit C, Part 1 of this Information Notice.

SFY 2021-22 Adolescent and Youth Treatment Program – \$7,334,583

SABG AYT funds provide comprehensive, age-appropriate, substance use disorder services to youth. The Youth Treatment Guidelines, revised in August 2002, are designed for counties to use in developing and implementing AYT programs funded by this allocation. Please see the [Youth Treatment Guidelines](#).

AYT funding is a component of the SABG Exchange Program. DHCS is allocating SFY 2021-22 SABG AYT funds based on the SFY 2020-21 final allocation level. For more information on how the Exchange Program affects a specific county's AYT Set-Aside, please refer to Exhibit C, Part 1 of this Information Notice.

SFY 2021-22 Human Immunodeficiency Virus (HIV) Early Intervention Services (EIS) Allowance - \$11,569,318

The SABG HIV EIS fund allowance may be used to provide oral fluid rapid HIV tests, and HIV pre- and post-test counseling.

Instead of a traditional set-aside, DHCS has established an annual HIV EIS allowance for each county (refer to Exhibit B – Statewide Allocation Summary of SABG Funds). Counties may use their Discretionary SABG funds for HIV EIS activities up to the predetermined allowance amount. Any expenditure for HIV EIS services will reduce the county's Discretionary Fund allocation accordingly.

For further information, please refer to [DHCS Behavioral Health Information Notice No. 21-007](#).
