

# COVID-19 and Medi-Cal Utilization

January 2022 data, reported through September 2021

# Understanding the Impact of COVID-19 on Medi-Cal Beneficiaries

- » DHCS is performing analysis and developing dashboards that will monitor the impact of COVID-19
- » Focus areas for utilization of services:
  - » COVID-19 cases, hospitalizations, and testing
  - » Utilization of services prior to and during the pandemic
    - \*Emergency Department Visits
    - \*Outpatient Visits
    - \*Mental Health Visits
    - \*Telehealth Visits
    - \*Beneficiaries with Dental Visits
    - \*Prescription Claims

# Data Analysis Caveats

- » Data presented is for all Medi-Cal beneficiaries
- » Age is based on the Medi-Cal eligibility data at the time of the service
- » Stratifications by sex, race/ethnicity, delivery system, and location are based on the most recent 12 months of reported data
- » Reporting is based on fee-for-service claims and managed care encounter data
- » Additional measures and reporting are in process beyond those being shared today

# Data Completeness Considerations

- » Data is preliminary and will continue to change and be updated
- » While most data is received within 3 to 6 months of date of service, data may be received up to 6 to 18 months after services are delivered (claim lag)
- » The time between a date of service and when DHCS receives fee-for-service claims, managed care encounters, and specialty mental health claims from providers varies
- » DHCS does not report the most recent months of utilization because of claim lag: the most recent 4 months for hospitalizations are not reported, 5 months for specialty mental health services, and 3 months for other services

# COVID-19 Confirmed Cases

- » Total number of beneficiaries with a COVID-19 diagnosis
- » ICD-10 codes used to identify Medi-Cal COVID-19 cases:
  - » B97.29 - other coronavirus as the cause of diseases classified elsewhere (before April 1, 2020)
  - » U07.1 - 2019 Novel Coronavirus, COVID-19 (from April 1, 2020 onward)
- » Data source:
  - » DHCS MIS/DSS (Medi-Cal)
  - » Open Data Portal (CA)

# COVID-19 Confirmed Cases

per 100,000 population

# COVID-19 Testing

- » Total number of COVID-19 tests by month tested
- » Data represent totals of tests (claims), not individual people
- » Tests can be antigen- or antibody-based. Specific codes used for identification of COVID-19 tests in Medi-Cal claims include, but are not limited to: U0001-4, 87635, 87426, 0202U, 0224U, 86328 and 86769
- » Data does not represent test results or positivity status
- » Data source:
  - » Medi-Cal: DHCS MIS/DSS Claims and Eligibility Data
  - » California (“total population”) Cases: CDPH CalREDIE, California Open Data Portal

# COVID-19 Testing

Testing in California (total population) compared to testing in Medi-Cal per 100,000 population

	3,095	3,280	3,479	2,631

# COVID-19 Hospitalizations

- » Hospitalizations are presented in the following ways
  - » Hospitalizations with a COVID-19 diagnosis (on the claim)
  - » All hospitalizations (COVID-19 and non-COVID-19)
  - » Comparison by calendar year, starting in 2019 (Pre-COVID) to present
- » Inpatient stays were defined as a unique combination of beneficiary and service date
- » Data Source:
  - » DHCS MIS/DSS Claims and Eligibility Data

# COVID-19 Hospitalizations

## per 100,000 beneficiaries

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2020	0	0	3	19	23	37	61	38	21	20	43	117
2021	113	36	17	12	9	7	21	51				

# COVID-19 Hospitalizations

## Percent of Hospitalizations Due to COVID-19

3.9%	3.6%	8.6%	27.5%	26.8%	8.4%	3.4%	2.42%	1.81%	1.38%	4.1%	11.1%

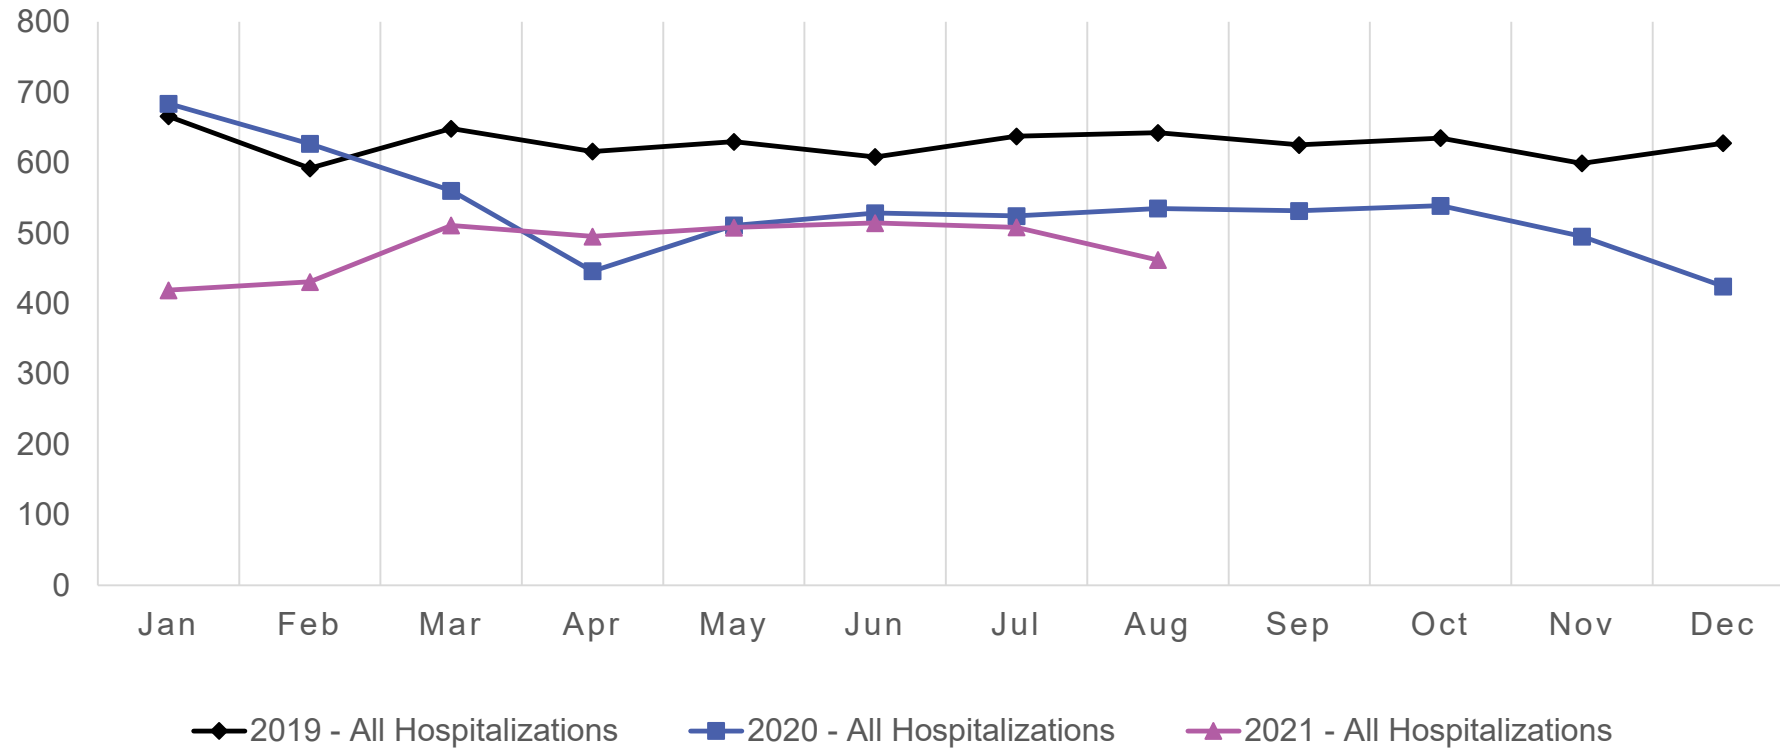

# COVID-19 Impact on Utilization of Medi-Cal Services

The following measures have been compiled to compare utilization during calendar year 2019 (Pre-COVID) to present:

- » Hospitalizations
- » Emergency Department Visits
- » Telehealth Visits
- » Outpatient Visits
- » Beneficiaries with Dental Visits
- » Mental Health Visits
- » Prescription Claims

# Hospitalizations

## per 100,000 beneficiaries

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

By Delivery System per 100,000 beneficiaries

	Dental Fee-For-Service	Dental Managed Care
Oct 20 - Sep 21	5,332	4,278

# Beneficiaries with Dental Visits

By Location per 100,000 beneficiaries

Oct 20 - Sep 21	Frontier	Rural	Urban	NA
	5,195	5,724	5,225	2,510

# Medi-Cal: Two Mental Health Delivery Systems

- » Managed Care Organizations Cover
  - » Adults: Mental health disorders resulting in mild to moderate distress or impairment of mental, emotional, or behavioral functioning
  - » Under 21: Non-specialty mental health services
- » Mental Health Outpatient Services Include
  - » Individual and group mental health evaluation and treatment (psychotherapy)
  - » Psychological testing, when clinically indicated to evaluate a mental health condition
  - » Outpatient services for the purpose of monitoring drug therapy
  - » Outpatient laboratory, drugs, supplies and supplements (excluding antipsychotics)
  - » Psychiatric consultation

# Carved Out Mental Health Services

- » Specialty Mental Health Services (SMHS)
  - » Administered through county mental health plans (MHPs)
  - » Services for adults with significant impairment from mental health conditions and for children/youth whose mental health needs require care services not included in managed care plan (MCP) mental health benefits
- » Substance Use Disorder (SUD) Benefits
  - » Administered through Drug Medi-Cal (DMC) and Drug Medi-Cal Organized Delivery System (DMC-ODS) counties, and waiver services
  - » Community-based system for SUD services through counties or through direct contracts with service providers

# Mental Health Visits

- » Mild to Moderate or Non-specialty Mental Health Visits - Total number of mental health visits in managed care and fee-for-service
- » Specialty Mental Health Visits – Total number of mental health visits in the Specialty Mental Health System
- » Visits are defined by a unique combination of beneficiary and visit date
- » Total number of visits includes telehealth visits
- » Visits have broad inclusion of procedures for screening, evaluation, care, and treatment provided in a non-specialty and specialty claiming systems
- » Source of data: MIS/DSS Claims and Eligibility

# Penetration Rates and Average Visits for Mental Health Services Over Time

- » Specialty Mental Health Penetration Rates have been relatively constant over the past three years
- » In contrast, Mild to Moderate Mental Health Services penetration rates and average visits in Managed Care have steadily increased during that time frame
  - » Penetration rate is total unique beneficiaries that were provided at least one psychotherapy and psychiatric evaluation services (based on selected procedure codes) in the State Fiscal Year (SFY)
  - » Average visit is average number of visits per unique beneficiary per SFY

	SFY 2017-18	SFY 2018-19	SFY 2019-20	Percent Change
Penetration Rate	3.0%	3.4%	3.4%	13%
Average Visit	5.0	5.3	5.6	12%

# Total Mental Health Visits

## Per 100,000 beneficiaries for All Ages

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2019	11,661	10,678	11,649	12,078	12,306	10,376	11,330	11,925	11,760	13,314	11,257	11,123
2020	12,787	12,068	12,714	13,534	12,759	12,740	12,802	12,065	13,007	13,679	11,864	12,231
2021	12,127	12,273	14,047	12,613	11,511	11,655	9,942					

# Mild to Moderate or Non-Specialty Mental Health Visits

Per 100,000 beneficiaries for All Ages

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2019	4,406	3,953	4,309	4,514	4,569	3,957	4,409	4,923	4,838	5,399	4,644	4,537
