

**EXHIBIT B**

**MAT DOSING SAME DAY BILLING MATRIX**

Permissible MAT same day dosing drug type combinations are outlined in the Matrix below.

The Matrix below refers to same day lockouts rules for drug types by unit of service. Each dose is represented by one unit of service in Short Doyle Medi-Cal (SDMC). Multiple service lines with fractional units may be submitted to accommodate multiple NDCs for dosing, however the claim will be denied if the unit does not equal one. For detailed billing information on multiple NDCs, please refer to BHIN 20-064.

<b>Drug Name</b>	Methadone	Buprenorphine	Disulfiram	Naloxone	Vivitrol	Acamprosate	Buprenorphine Combo
Methadone	No	No	Yes	Yes	No	No	No
