

Welfare and Institutions Section 4094.2.

(a) For the purpose of establishing payment rates for community treatment facility programs, the private nonprofit agencies selected to operate these programs shall prepare a budget that covers the total costs of providing residential care and supervision and mental health services for their proposed programs. These costs shall include categories that are allowable under California's Foster Care program and existing programs for mental health services. They shall not include educational, nonmental health medical and dental costs.

(b) Each agency operating a community treatment facility program shall negotiate a final budget with the local mental health department in the county in which its facility is located (the host county) and other local agencies as appropriate. This budget agreement shall specify the types and level of care and services to be provided by the community treatment facility program and a payment rate that fully covers the costs included in the negotiated budget. All counties that place children in a community treatment facility program shall make payments using the budget agreement negotiated by the community treatment facility provider and the host county.

(c) A foster care rate shall be established for each community treatment facility program by the State Department of Social Services. These rates shall be established using the existing foster care ratesetting system for group homes, with modifications designed as necessary. It is anticipated that all community treatment facility programs will offer the level of care and services required to receive the highest foster care rate provided for under the current group home ratesetting system.

(d) For the 2001-02 fiscal year, community treatment facility programs shall also be paid a community treatment facility supplemental rate of up to two thousand five hundred dollars (\$2,500) per child per month on behalf of children eligible under the foster care program and children placed out of home pursuant to an individualized education program developed under Section 7572.5 of the Government Code. Subject to the availability of funds, the supplemental rate shall be shared by the state and the counties. Counties shall be responsible for paying a county share of cost equal to 60 percent of the community treatment rate for children placed by counties in community treatment facilities and the state shall be responsible for 40 percent of the community treatment facility supplemental rate. The community treatment facility supplemental rate is intended to supplement, and not to supplant, the payments for which children placed in community treatment facilities are eligible to receive under the foster care program and the existing programs for mental health services.

(e) For initial ratesetting purposes for community treatment facility funding, the cost of mental health services shall be determined by deducting the foster care rate and the community treatment facility supplemental rate from the total allowable cost of the community treatment facility program. Payments to certified providers for mental health services shall be based on eligible services provided to children who are Medi-Cal beneficiaries, up to the statewide maximum allowances for these services.

(f) Although there is statutory authorization for up to 400 community treatment facility beds statewide, it is anticipated that there will be a phased-in implementation of community treatment facilities, and that the average monthly community treatment facility caseload during the 2001-02 fiscal year will be approximately 100.

(g) The department shall provide the community treatment facility supplemental rates to the counties for advanced payment to the community treatment facility providers in the same manner as the regular foster care payment and within the same required payment time limits.

(h) In order to facilitate a study of the costs of community treatment facilities, licensed community treatment facilities shall provide all documents regarding facility operations, treatment, and placements requested by the department.

(i) It is the intent of the Legislature that the department and the State Department of Social Services work to maximize federal financial participation in funding for children placed in community treatment facilities through funds available pursuant to Titles IV-E and XIX of the federal Social Security Act (Title 42 U.S.C. Sec. 670 and following and Sec. 1396 and following) and other appropriate federal programs.

(j) The department and the State Department of Social Services may adopt emergency regulations necessary to implement joint protocols for the oversight of community treatment facilities, to modify existing licensing regulations governing reporting requirements and other procedural and administrative mandates to take into account the seriousness and frequency of behaviors that are likely to be exhibited by the seriously emotionally disturbed children placed in community treatment facility programs, to modify the existing foster care ratesetting regulations, and to pay the community treatment facility supplemental rate. The adoption of these regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, and general welfare. The regulations shall become effective immediately upon filing with the Secretary of State. The regulations shall not remain in effect more than 180 days unless the adopting agency complies with all the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, as required by subdivision (e) of Section 11346.1 of the Government Code.
