DEPARTMENT OF MENTAL HEALTH INFORMATION NOTICES:
08-29 and 09-08.

This Information Notice is to remind Mental Health Plans (MHPs) of the data submission requirements for the Statewide Early, Periodic Screening, Diagnosis and Treatment Performance Improvement Project (EPSDT PIP) pursuant to DMH Information Notice 09-08, dated June 25, 2009 and Information Notice 08-29, dated October 6, 2008.

Field Submission Rules for EPSDT PIP data report:

MHPs may determine when to routinely update the EPSDT PIP data report to DMH; however, all current information must be submitted to DMH by December 31 and again by June 30, annually. This information will be used by DMH to track the individuals participating in the study group.

Data can be submitted by batch CSV file or by direct online key entry. The direct online key entry form can be accessed at the following URL:

<https://poqi1.dmh.ca.gov:8443/lfserver/pipenroll>. (Be sure to hold-down the Control key and click on the URL to access). The direct on-line key form should be completed when adding a new client into the study group, when disenrolling a participant from the study group or making updates to any of the required fields. All fields are required to be completed except

for the Participant Disenrollment Date, and Begin Intervention Date, which are only required when those changes take place. **Please Note:** The only reasons for participants to disenroll are if they leave the county or “age out”.

EPSDT PIP Batch File Formatting Instructions: (Enclosure 1)

This is the format that MHPs should use to develop their file for batch submittal. It should be created as CSV file and be comma delimited. The file should only include individuals that meet the criteria for participation in the Statewide PIP. Please **DO NOT** re-submit participants that have already been included in the study group unless there is an **update, disenrollment, or intervention**. The **only** reasons for participants to disenroll would be if they leave the county or “age out”.

Please Note: All records must include a valid Record Type in order to be processed. Valid Record Type codes are: 1 = Enrollment, 2 = Disenrollment, or 3 = Update. The Field Names in each MHP’s file must exactly match those specified in the following table or the file will not be processed. Please pay close attention when entering clients’ names to avoid duplication of records, i.e. Misspelled names, first name entered in last name field.

Sample Data File (CSV format, comma delimited):

Here are the header records that are required on all batch submissions: RecordType, CountyID, CCN, FirstName, LastName, SSN, CIN, DOB, Gender, EnrollDate, DisEnrollDate, IntervDate, SubmitBy, ContactPhone.
