1932(a)(1)(A)	<p>A. <u>Section 1932(a)(1)(A) of the Social Security Act.</u></p> <p>The State of <b>California</b> enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization (MCOs) and/or primary care case managers (PCCMs)) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230). This authority may <i>not</i> be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries who are Medicare eligible, who are Indians (unless they would be enrolled in certain plans—see D.2.ii. below), or who meet certain categories of “special needs” beneficiaries (see D.2.iii. - vii. below)</p> <p><b>The various models have been in operation as follows: Sacramento Geographic Managed Care (GMC) as of April 1, 1994, Two-Plan Model as of January 22, 1996, and Healthy San Diego GMC as of October 16, 1998.</b></p>

- **The Medi-Cal Managed Care Advisory Group: DHCS's Medi-Cal Managed Care Division (MMCD) Advisory Group was formed in December 1998, as a vehicle to facilitate active communication between the Medi-Cal managed care program and all interested parties and stakeholders. The MMCD Advisory Group membership consists of advocacy groups, health plan representatives, medical associations, and the State's enrollment broker. The Advisory Group meetings are held in Sacramento, and are chaired by the MMCD Division Chief. This group is routinely advised about issues relevant to Medi-Cal managed care, and is often solicited for feedback on issues such as informing materials and the State Quality Strategy.**
- **Tribal input is/will be solicited by direct inquiry to tribal councils and the California Rural Indian Health Board (CRIHB) regarding any future changes to the managed care program.**
- **Public input is/will be solicited in the future through published news articles produced by DHCS's Public Information Office.**

**Process:**

The enrollment broker will conduct in-person enrollment sessions in each county with all Medi-Cal eligible beneficiaries that voluntarily choose to attend.

Beneficiaries are informed of these sites through the presentation schedule included in the enrollment packets. Referrals are also made by eligibility workers and the enrollment broker's call center staff.

The State assures the information will be presented to non-English speaking participants in a culturally competent manner. Accommodations for the visually and hearing impaired, and the physically disabled are made available.

\*GMC exception: In San Diego County, county employees will conduct in-person enrollment sessions with all Medi-Cal eligibles that voluntarily choose to attend.

**Content:**

The content of the enrollment sessions includes information as follows:

- A. Description of what is a Medi-Cal MCO;
- B. Who must vs. who may join a MCO;
- C. Those who are not eligible to join a MCO;
- D. Those who may be exempt from mandatory participation in a MCO;
- E. Service and items covered by the MCO;
- F. Benefits outside the managed care contract, and how participants may access these services;
- G. How to change Primary Care Providers (PCPs) or MCOs; and
- H. Grievance and appeal rights provided by the MCOs and the State Hearing process, and the procedures for using them.

**Enrollment Packets:**

The population subject to the initial process includes those Medi-Cal beneficiaries in mandatory aid codes who are eligible for enrollment in a managed care plan.

Beneficiaries who are newly eligible for enrollment in a mandatory aid code are mailed an Intent to Assign (IA) Packet. The IA process is as follows:

The enrollment broker prepares the IA packet and mails it to the newly eligible. Five (5) days are allowed for mail time;</li><li>D. The newly eligible has 30 days to decide on a plan and respond with his/her decision; and</li><li>E. When the newly eligible's response is received, a transaction is processed and he/she is enrolled in the plan. The enrollment packet contains the directive that eligible beneficiaries may change plans at any time after this selection.</li></ul>

**Annual Renotification Process:**

Managed care enrollees are again informed of their right to change health plans at any time during the Annual Renotification process. This process includes sending a notice to each enrollee that has been in the same plan for 10 consecutive months. The notice includes a "tear off" postcard that can be mailed back requesting materials for changing health plans.

Should a beneficiary request disenrollment from their current plan during the renotification process or at any other time, the request will be processed no later than the end of the month following the month in which the request to disenroll is received by the enrollment broker.

1. Definitions

- i. An existing provider-recipient relationship is one in which the provider was the main source of Medicaid services for the recipient during the previous year. This may be established through state records of previous managed care enrollment or fee-for-service experience, or through contact with the recipient.
- ii. A provider is considered to have "traditionally served" Medicaid recipients if it has experience in serving the Medicaid population.

1932(a)(4)

2. State process for enrollment by default.

Describe how the state's default enrollment process will preserve:

- i. the existing provider-recipient relationship (as defined in H.1.i).

**Enrollment will be based upon maintaining prior family-plan relationships, or where not possible, a default algorithm will be used. Assignments made for continuity of care are not considered to be default assignments.**

**The State will use an enrollment broker, and the criteria for assigned enrollment are described below.**

**When a beneficiary is assigned to a plan, a weighted assignment method shall be used to determine the plan to be assigned. Considerations that apply include, but are not limited to, the following:**

- A. A beneficiary shall only be assigned to a managed care plan with a primary care service site in the same ZIP Code as the beneficiary's residence;**
- B. A beneficiary shall be assigned to the same managed care plan as:
  - 1. that in which he/she was previously enrolled;**
  - 2. that in which a head of household (case head) is enrolled;**
  - 3. if the case head is not enrolled in a plan, then that in which another family member is enrolled.****

**However, provided at least one (1) family member has maintained managed care assignment history, and in order to preserve continuity of care, the following considerations shall be taken into account for each assignment:**

- A. Continuity of care is maintained at a case/household level;**
- B. At least one (1) member of the household must remain continuously eligible within the county for continuity of care to be assigned to someone within that case;**
- C. If a member of the case loses eligibility for more than 120 days, the case history is archived; however, should the member re-establish eligibility, continuity of care will be restored based on the case;**
- D. If all members of the case lose eligibility for more than 120 days, the case is archived, and continuity of care is lost; and**
- E. If the entire case moves out of the county of eligibility, continuity of care is lost.**

If no response is received within 20 days of the mailing of the enrollment packet, an ID letter is mailed to the beneficiary. This letter informs the beneficiary that should they not be satisfied with the plan assigned to them, they are able to change plans by completing a choice form.

The beneficiary may choose to change plans at any time after receiving the official default notification from the enrollment broker. If the beneficiary decides to change plans, the beneficiary may call the enrollment broker's toll-free telephone number for additional assistance.

- v. Describe the default assignment algorithm used for auto-assignment. *(Examples: ratio of plans in a geographic service area to potential enrollees, usage of quality indicators.)*

The enrollment broker shall adhere to the State's algorithm for a performance-based auto-assignment of beneficiaries to the various managed care plans in Two-Plan and GMC Model counties, pursuant to State regulations (California Code of Regulations, Title 22, Section 53820), and written directives.

A description of the most significant parameters is as follows:

- A. The distribution of auto-assignments will be determined based on an assessment of comparative plan performance on eight (8) measures.
- B. Six (6) of the measures come from HEDIS: Childhood Immunizations: Combination 2, Well-Child Visits: 3rd – 6th Years of Life, Adolescent Well-Visits, Timeliness of Prenatal Care, Appropriate Medications for People with Asthma, and Cervical Cancer Screening. DHCS used the first five (5) measures for the first two (2) years, and for Year 3 added one (1) additional HEDIS measure, Cervical Cancer Screening. There are also two (2) safety net provider support measures that were created through collaboration among MCOs and DHCS: Members Assigned to Safety Net Provider PCPs, and Discharges at Disproportionate Share Hospital (DSH) Facilities.
- C. For the HEDIS measures, a health plan will be awarded two (2) points for a score that is statistically and significantly better than those of its competitor. If

	<p>there is no statistical difference in rates, each plan will get one (1) point.</p>
D.	<p>For each of the safety net provider support measures, a plan will be awarded one (1) point if its rate is five (5) percent higher than that of its competitor, with an additional 0.25 (1/4) points awarded for each additional five (5) percent difference, up to a maximum of two (2) points being awarded for a difference of 25 percent or more.</p>
E.	<p>When a new health plan enters a county, it receives the percentage of allocations equal to the other health plan (Two-Plan County) or the county mean (GMC County) until it can generate HEDIS and safety net measures. At that time they are subject to the same policy compendium rules that apply to the existing health plans. For Year 4, beginning December 2008, the cap is currently at 20% (the maximum amount a plan can gain or lose based on their score) for all health plans, but is subject to change each year.</p>
F.	<p>Beginning in the second year, plans were awarded one (1) point for demonstrating statistically significant improvement for each measure relative to prior year performance, with the possible loss of one (1) point for a statistically significant decline in performance as well. Those plans determined by DHCS to have exceptionally strong performance automatically earn a point and are not required to demonstrate statistically significant improvement.</p>

**The default rates are monitored through a reporting process. Health Care Options (HCO) receives daily, weekly, and monthly reports from the enrollment broker that are required for monitoring the default process. Monitoring is done as follows:**

- A. Review the Daily Status Report- provides a breakdown of enrollment into the Two-Plan and GMC plans in each managed care county and the default ratios for each county.**
- B. Review the Monthly Managed Care Maximum Enrollment Report – provides information on the maximum and minimum beneficiary enrollment capitations of all Two-Plan and GMC managed care plans.**
- C. Review the Monthly Enrollment Default Percentages Report –provides county specific default percentages for all managed care counties.**
- D. Review the MSC-B-M02 Monthly Enrollment summary – provides formula determined default percentage rates for the Two-Plan and GMC.**
- E. Review the Monthly Progress Report – provides a summary of the MSM-B-M22 Monthly Cumulative Medical Beneficiaries Assigned to Two-Plan and GMC plans.**
- F. Random sampling of the processed enrollment forms.**

**The default rates are monitored daily and determined on a monthly basis for plan accuracy.**

**Two-Plan Model:**

The State will contract with two (2) MCOs in each county to provide services, and beneficiaries will have a choice between these two (2) plans\* (See exceptions below for Stanislaus, Tulare, and Fresno Counties).

In general, the State will contract with one (1) MCO, referred to as the LI health plan and one (1) MCO, referred to as the Commercial Plan (CP). The LI is a locally developed comprehensive managed care system, developed under the leadership of the County Board of Supervisors. It is essentially a public-private partnership that will have a contractual obligation to include traditional and safety net providers in its network. If there is no LI in a particular county, the State may seek to contract with two (2) CPs.

\*In Stanislaus and Tulare, the County has designated a CP to act as the LI. In Fresno County, there are two (2) CPs.

The CP contractors in the Two-Plan Model are awarded through the competitive bid process in accordance with Title 22, CCR (California Code of Regulations), Section 53800(b)(1). The Request for Proposal (RFP) bidding method is used due to the highly complex nature of the services to be provided. The resulting contracts are generally entered into for a period of up to eight (8) years, having an original term of five (5) years with three (3) one-year extensions. The average RFP process takes approximately 18 months to complete. Therefore, it should begin at least 18 months prior to end of the eight-year period. Since contracts for the Two-Plan contractors were executed at various dates, the RFP process is staggered so that various geographic areas are solicited during each proposal cycle.

For former Agnews residents: Services will be provided by the Medi-Cal managed care health plans that are operating as LIs in Santa Clara and Alameda counties, based on their networks' readiness to serve the health care needs of this population, if consumers, where applicable, choose to enroll.

**GMC:**

The State will contract with multiple MCOs to provide services and beneficiaries will have a choice of no less than two (2) plans.

The selective contracting provision is not applicable to the GMC model.
