(A) The SMA for counseling sessions for outpatient drug free treatment services

shall be prorated annually as follows:

1. The SMA for an individual counseling session shall be prorated annually using the percentage computed by dividing the total actual time for all counseling sessions by the total time which would have been spent if all counseling sessions were 50 minutes in duration. This percentage (not to exceed 100 percent) shall be applied to the SMA to determine the maximum reimbursement rate.

For example: $\text{Total Session Time} / (50 \text{ minutes} \times \text{Number of Sessions}) \times \text{SMA} = \text{Prorated SMA}$.

2. The SMA for a group counseling session shall be prorated annually using the percentage computed by dividing the total actual time for all counseling sessions by the total time which would have been spent if all counseling sessions were 90 minutes in duration. This percentage (not to exceed 100 percent) shall be applied to the SMA per person to determine the maximum reimbursement rate.

For example: $\text{Total Session Time} / (90 \text{ minutes} \times \text{Number of Sessions}) \times \text{SMA} = \text{Prorated SMA}$.

3. To qualify as a group counseling session there shall be at least one Medi-Cal beneficiary in a group of no less than four and no more than ten individuals.

(b) Reimbursement for narcotic treatment program services shall be limited to the lower of the following:

(1) A uniform statewide reimbursement (USR) rate; or

(2) The provider's usual and customary charge to the general public for the same or similar service.

(c) The USR rate for narcotic treatment program services shall be based on the following:

(1) A per capita rate for each beneficiary receiving narcotic replacement therapy dosing, core, and lab work services:

(A) The narcotic replacement therapy dosing fee for methadone or LAAM shall include ingredient costs for an average daily dose of methadone or an average dose of LAAM dispensed to Medi-Cal beneficiaries;

(B) Where available, core and lab work services shall be based on and not exceed, for individual services or in the aggregate, outpatient rates for the same or similar service under the Medi-Cal fee-for-service program.

(d) The USR rate for narcotic treatment program services shall be prorated to a daily rate per beneficiary if the beneficiary receives less than a full month of services.

The daily rate shall be based on:

(1) The annual rate per beneficiary; and

(2) A 365-day year.

(e) Reimbursement for narcotic treatment program services shall not be provided for services not rendered to or received by a beneficiary.

(f)) For narcotic treatment program services, the USR rate shall consist of the following service components:

(1) Core; laboratory work; and dosing which are described below:

(A) Core consists of a physical exam, a test/analysis for drug determination, intake assessment, initial treatment plan, and physician supervision.

(B) Laboratory work consists of a tuberculin skin test, a serological test for syphilis, drug screening (urinalysis), and pregnancy tests for female LAAM beneficiaries.

(C) Dosing consists of an ingredient and dosing fee.

(2) Counseling services.
