Review of CRCS Supporting Documentation

1. No Student PHI should be included
2. Not a new requirement for audit
 - » Documents have historically been collected during the audit
 - » Collecting this information at CRCS submission will create efficiencies in the audit process
3. LEAs are free to use reporting layout/format that works best, A&I is flexible in how the information is reported
4. Totals for each category should reconcile to CRCS worksheets
5. If LEAs are concerned with submitting sensitive information, add [SECURE] to email subject line to transmit securely

Question 1 Q&A

The image features a white background with the text 'Question 1 Q&A' centered in a bold, dark blue font. Below the text, there are several overlapping, wavy, horizontal bands of purple and lavender colors, creating a decorative graphic element.

Question 2: Why do we need to report hours by practitioner type? What hours need to be included on Worksheet B?

Question 2: Why do we need to report hours by practitioner type?

- » Annual hours were on historical versions of the CRCS
- » Reporting of hours was removed to lessen LEA burden in 2022 when five reports were submitted to DHCS
- » Hours are a **critical piece** of rebasing the interim rates
 - » State Plan requires rate rebasing every five years
 - » Costs by practitioner type are reported on the CRCS
 - » Rate-setting requires median hourly cost calculations by practitioner type
 - » Hours are needed to update interim rates

Question 2: ? What hours need to be included on Worksheet B?

» UPDATE! Hours are no longer required on Worksheet B

- During the SFY 21-22 CRCS training, many stakeholders expressed concerns related to reporting of hours
 - DHCS met with stakeholders last week to hear concerns
 - Quarterly reporting of hours presented significant challenges for many LEAs
- » LEAs may elect to include hours if information has been collected**
- Reported hours are not subject to audit

Question 2 Q&A

Question 3: What are the requirements for a practitioners' salaries/benefits to be included on Worksheet B?

A decorative graphic consisting of several overlapping, wavy, horizontal bands in various shades of purple and magenta, located in the lower half of the slide.

Question 3: To be included on the CRCS, does a practitioner need to be on the TSP list and the LEA must have received interim reimbursement for the TSP?

- » No, **billing for LEA BOP covered services is a best practice that is strongly encouraged by DHCS**, but it is not an explicit requirement to include a practitioner's costs on the CRCS
- » A practitioner **must be on the TSP List** to include their costs on the CRCS (by quarter)
- » Practitioners for which the LEA did not receive interim payments may be included if they provided LEA BOP covered services and met LEA BOP billing requirements
 - » LEAs must be able to substantiate these exception cases

Practitioners without Interim Payments

- » If the LEA reports practitioners without interim billings on the CRCS, the LEA must be able to support costs with **documented covered services**
 - ✓ Did the practitioner meet the qualifications to bill for the covered service per LEA BOP requirements found in the Provider Manual ([*loc ed rend*](#))?
 - ✓ Was the practitioner supervised, if necessary? Is this documented?
 - ✓ Did the practitioner record services (in a portal or hard copy)?
 - ✓ Did the practitioner document to the extent required for billing purposes?
 - ✓ In an audit, could the LEA support that the practitioner provided covered LEA BOP services? Could they readily locate supporting documentation?
- » **If NO to any of the above, do not include these practitioner costs on the CRCS!**

Question 3 Q&A

The image features a decorative graphic consisting of several overlapping, wavy, horizontal bands of purple and magenta colors, positioned below the main text.

Question 4: I'm having trouble finding the Medicaid Eligibility Rate (MER) for our district, can DHCS help me locate this?

A decorative graphic consisting of several overlapping, wavy, horizontal bands in various shades of purple, ranging from a deep magenta to a light lavender. The bands are layered, creating a sense of depth and movement across the lower half of the page.

Question 4: Can you DHCS help me locate the data for the MER calculation?

- » The MER is **calculated annually** and used to apportion costs to the Medi-Cal Program
- » The MER is obtained for a **snapshot in time**
- » Data to calculate the MER is **maintained by the LEA**
- » DHCS conducted a [MER training in October 2022](#)
- » The SFY 2021-22 MER is calculated using **two components**:
 1. Numerator: Number of Medi-Cal Enrolled Students in the LEA
 2. Denominator: Total Number of Students Enrolled in the LEA on May 25, 2022

MER Calculation

- » Denominator: Count of all students *enrolled in the LEA* as of May 2022. LEA BOP Providers were instructed to obtain enrollment data on May 25, 2022.

Total student enrollment (as of May 25, 2022) is submitted to DHCS via the MOVEit Data Match eligibility confirmation process

- » Output file is the basis for the MER Numerator
 - » In order to be included in the numerator count, the student must be Medi-Cal enrolled **and** eligible for federal funding ("FFP Qualified")

Determining the Numerator

Current Month assumes
May 2022 output file

- » Example of Data Match output text file, delimited into an Excel file
- » Columns created to align with Data Use Agreement Attachment A file layout.

Position 1-9	Position 10-29	Position 30-44	Position 137 (Current Month Data)	Position 262
SSN	LAST NAME	FIRST NAME	ELIG INDICATOR	FFP QUALIFIED
	LName1	FName1	Y	Y
	LName2	FName2	Y	Y
	LName3	FName3	Y	Y
	LName4	FName4	N	
	LName5	FName5	Y	Y
	LName6	FName6	N	
	LName7	FName7	Y	N
	LName8	FName8	N	
	LName9	FName9	Y	Y
	LName10	FName10	Y	Y

To determine the numerator for the MER calculation:

1. Position 137: Current Month Eligibility Indicator = Y;

AND

1. Position 262: FFP Qualified = Y

Note: In the example above, 7 students are eligible for the current month (May), and 6 of the 7 eligible students are FFP Qualified. Therefore, the MER numerator is 6.

MER Documentation Reminders

- » Both data files (total student enrollment input file and the MOVEit output file) must be **maintained for audit and/or review purposes.**
- » Files must be maintained for a minimum of 3 years from date of CRCS acceptance
 - » LEAs involved in an audit at the end of the 3-year required retention period must maintain records until the audit is complete.
- » Files will contain highly sensitive Protected Health Information (PHI) and must be **securely stored.**

Question 4 Q&A

The image features a decorative graphic consisting of several overlapping, wavy, horizontal bands of purple and lavender colors, positioned below the main text.

**Question 5: If I need an extension on the
CRCS due date, whom do I ask?**

The bottom half of the slide features a decorative graphic consisting of several overlapping, wavy, horizontal bands in various shades of purple, ranging from a deep magenta to a light lavender. These bands create a sense of movement and depth, framing the bottom of the text area.

Question 5: If I need an extension on the due date, whom do I ask?

- » All extension requests go to: LEA.CRCS.Submission@dhcs.ca.gov
- » You will receive an e-mail response from the Cost Report and Tracking Section (CRTS) of A&I containing approval or denial of extension request
- » **LEA BOP staff cannot grant extensions** (no need to email the LEA inbox)
- » CRCS reports that are not filed by the due date and do not have an extension granted will be considered overdue
 - LEAs on 100% withhold will not receive reimbursement for future claims until the report is accepted by CRTS

Open Q&A

The slide features a white background with the text 'Open Q&A' centered in a dark blue, bold font. Below the text, there are several overlapping, wavy lines in various shades of purple, creating a decorative border at the bottom of the slide.
