

**Medi-Cal Children's Health Advisory Panel
Pediatric Dashboard Subcommittee Meeting Minutes
November 3, 2015**

MCHAP Attendees:

Alice Mayall (Co-Chair)

Dr. Marc Lerner

DHCS Attendees:

Anastasia Dodson

Dr. Linette Scott

Sean Mulvey

Adam Weintraub

Cindy Du

Karen Chang

Sonny Bains

Daryl Hightower

- I. Summary and Follow-up from the September Meeting.
 - a. Anastasia Dodson reviewed the DHCS responses to the questions/comments received at the September meeting.
- II. Discussion of the updated dashboard.
 - a. Enrollment Data (Figures 1& 2)
 - i. Department will update to include Q2 2015 (June) data to next iteration.
 - b. Immunizations for Adolescents (Figure 6)
 - i. Dr. Lerner stated that there is minimal value in providing information on combination 1, by Model Type (County Organized Health System, Geographic Managed Care, Two-Plan)
 - ii. Suggested adding HPV vaccination rate.
 1. Will take this question to larger MCHAP Panel.
 - c. Dental Care (Figure 7)
 - i. Subcommittee recommended removing all of the verbiage on numerator and denominator for each measure and placing a link to complete definition within a supplemental document or website.
 - ii. Department will update the data to include 2014 data
 - iii. The panel suggested having benchmarks and expected performance ranges as is shown for HEDIS. It was recommended that DHCS look into the Healthy People 2020 for measures on dental sealants and their associated performance targets.
 - d. Mental Health Utilization Rates for Children and Youth (Figure 8)
 - i. Panel would like to see information not just on Specialty Mental Health Services, but include data related to utilization of mild to moderate services that are now covered in managed care and fee-for-service.
 - ii. Panel would recommend keeping the Specialty Mental Health Services (SMHS) charts that describe members as opposed to those that describe the quantity of services (such as number of minutes used). Panel also recommended that Substance Use Disorder Services data be included within the dashboard.

**Medi-Cal Children's Health Advisory Panel
Pediatric Dashboard Subcommittee Meeting Minutes
November 3, 2015**

- e. Consumer Satisfaction (Figure 9)
 - i. The panel requested standards/benchmarks for the data being provided.
- III. Public Comments/Questions
 - a. DHCS received comments via email after the meeting.
- IV. Next Steps
 - a. Revise dashboard to include benchmarks for measures provided, and refresh data as applicable; this will be the final "version 1" of the children's health dashboard, to be published on the DHCS website in December.
 - b. DHCS look into what data sources the department has on HPV vaccinations and mild-to-moderate mental health services utilization.
 - c. Alice Mayall and Dr. Lerner to report back to the main MCHAP panel on:
 - i. Should HPV vaccination data be in the pediatric dashboard?
 - ii. Convey the recommendation from stakeholders to have a deep dive discussion on key HEDIS measures.
