Medi-Cal Children's Dashboard

Linette T Scott, MD, MPH, FACPM

Chief Medical Information Officer, DHCS

Purpose and History of Children's Dashboard

- Joint DHCS-MCHAP subcommittee, with stakeholders, established in 2015 to develop priorities for children's dashboard

- Intent was to highlight key data across services and delivery systems for children in Medi-Cal

- First dashboard published September 2016

Current Dashboard Elements

- Enrollment data for Managed Care and Fee-for-Service (updated quarterly)

- Language and ethnicity data (updated quarterly)

- Managed Care Health Plans Measures:
Child specific measures (updated yearly)
  - Immunization Rates
  - Access to Primary Care Practitioners
  - Weight Assessments and Nutritional Counseling
  - Rate of Well-Child Visits for 3rd, 4th, 5th and 6th Years of Life

Current Dashboard Elements Continued

- Dental Measures: Managed Care and Fee-For-Service (updated quarterly)

  – Annual Dental Visits

  – Use of Preventative Services

  – Use of Sealants

- Specialty Mental Health Services (SMHS): Statewide and regional data on the number of children and youth under 21 receiving SMHS through county mental health programs (updated annually)

Key Issues Raised by Stakeholders

- Regular release
- Disaggregated race/ethnicity and age data
- Pediatric network adequacy and corrective action
- Mental and behavioral health services
- Consumer experience data
- Child Core Set indicators
- Reconvene subcommittee

Role of the Medi-Cal Children's Dashboard

- High-level view of a selection of measures that cross the Medi-Cal experience for children

- Not inclusive of all data made publicly available about children

- DHCS continues to publish additional data to the DHCS website and the CHHS Open Data Portal
