RE: Department of Health Care Services Medical Audit

Dear Ms. Leone:

The Department of Health Care Services (DHCS), Audits and Investigations Division conducted an on-site Medical Audit of CalViva Health, a Managed Care Plan (MCP), from February 3, 2020 through February 14, 2020. The audit covered the period of February 1, 2019 through January 31, 2020.

On February 4, 2022, the MCP provided DHCS with additional information regarding its Corrective Action Plan (CAP) in response to the report originally issued on June 30, 2020.

All items have been evaluated and DHCS accepts the MCP's submitted CAP. The CAP is hereby closed. Overall effectiveness of the CAP will continue to be assessed, as well as, to what extent the MCP has operationalized proposed corrective actions on the subsequent audit. The enclosed report will serve as DHCS' final response to the MCP's CAP.

Please be advised that in accordance with Health & Safety Code Section 1380(h) and the Public Records Act, the final report will become a public document and will be made available on the DHCS website and to the public upon request.

If you have any questions, feel free to contact me at (916) 345-7825 or Anthony Martinez at (916) 345-7828.

**ATTACHMENT A
Corrective Action Plan Response Form**

CALIFORNIA DEPARTMENT OF
HEALTH CARE SERVICES

Plan: CalViva Health

Review Period: 02/01/2019 – 01/31/2020

Audit Type: Medical Audit and State Supported Services

Onsite Review: 02/03/2020 – 02/14/2020

MCPs are required to provide a CAP and respond to all documented deficiencies within 30 calendar days, unless an alternative timeframe is indicated in the letter. MCPs are required to submit the CAP in word format that will reduce turnaround time for DHCS to complete its review.

The CAP submission must include a written statement identifying the deficiency and describing the plan of action taken to correct the deficiency, and the operational results of that action. For deficiencies that require short-term corrective action, implementation should be completed within 30 calendar days. For deficiencies that require long-term corrective action or a period longer than 30 calendar days for implementation, the MCP must demonstrate it has taken remedial action and is making progress toward achieving an acceptable level of compliance. The MCP will be required to include the date when full compliance is expected to be achieved. **Policies and procedures submitted during the CAP process must still be sent to the MCP's Contract Manager for review and approval in accordance with existing requirements.**

DHCS will maintain close communication with the MCP throughout the CAP process and provide technical assistance to ensure the MCP provides sufficient documentation to correct deficiencies. Depending on the volume and complexity of deficiencies identified, DHCS may require the MCP to provide weekly updates, as applicable.

|---|---|---|--|--|
| <p>2.1.1 Finding (continued)</p> | <p>4. Review and revise IHA/IHEBA Provider training, education and communication content and methodology (i.e. lunch and learns, virtual trainings, provider portal, print material, etc.) based upon interventions identified in the quality improvement activities (#1 and #2c).</p> <p>Lunch and Learn webinar reviewing best practices for IHA/IHEBA. 60 attendees from Fresno County</p> <p>A webinar training will address IHA/IHEBA requirements, and based upon identified barriers will include information on how to access new member lists to contact patients due for IHA/IHEBA.</p> | <p>20-298 Complete the IHA within 120 Days to Help Manage Your Patient's Health Care Need</p> <p>20-530, Tips for Completing the New Member IHA</p> <p>Lunch & Learn - Improving the Provider Experience</p> <p>Quarterly Webinar IHA Slide</p> | <p>4. October 2020 - March 2021</p> <p>Provider Update 20-298 March 20, 2020</p> <p>Provider Update 20-2530 Sept. 2020</p> <p>Completed September 16, 2020</p> <p>Scheduled December 4, 2020</p> | <p>Plan Response (02/04/22):</p> <p>To ensure IHA/IHEBA Best Practices are incorporated systematically by MCP providers, the MCP plans to enhance quarterly IHA/IHEBA reporting to identify providers with low IHA/IHEBA completion rates. Providers with low performance will be offered training and additional interventions to resolve barriers to IHA/IHEBA completion.</p> <p>In August 2021, the MCP identified 7 high-volume provider sites with low IHA/IHEBA completion rates and offered expedited IHA/IHEBA training. As of October 27th, 100 percent of the 7 provider sites completed IHA/IHEBA training. The MCP will continue to monitor IHA/IHEBA completion rates for these 7 low-performing provider sites in future quarterly reporting cycles.</p> |
