

Whole Child Model (WCM) and Rady CCS Demonstration Pilot

Stakeholder Advisory Committee (SAC) Meeting
July 18, 2018

WCM Overview

Today

Bifurcated delivery system results in lack of coordination and integration when accessing care from both systems

Specialty care is received from the CCS Fee-For-Service (FFS) system for the CCS condition

Primary care and behavioral health services are received from the managed care health plan

SB 586

Whole Child Model

Integrates Medi-Cal managed care and CCS FFS delivery systems, resulting in:

Improved care coordination for primary, specialty, and behavioral health services for CCS and non-CCS conditions

Care that is consistent with CCS program standards by CCS paneled providers, specialty care centers, and pediatric acute care hospitals

Increased consumer protections, such as continuity of care, oversight of network adequacy standards and quality performance

Phase I Implementation

3 Medi-Cal Managed Care Plans (MCPs) – 6 Counties

July 1, 2018

Health Plan	Counties	Number of Beneficiaries
Central California Alliance for Health	Merced Monterey Santa Cruz	6,980
CenCal Health	San Luis Obispo Santa Barbara	3,130
Health Plan of San Mateo	San Mateo	1,900

Pre Implementation

Monthly Call with MCPs, County Associations, and WCM Counties

WCM FAQs (Living document)

Informational Webinars: MTP, Beneficiary WCM, NICU

Data Sharing

COHS Plan and County Readiness Review

Network Adequacy
