# Performance Outcomes System
## Report run on  August 3, 2017

## Background

Three reports will be created during each new reporting period. The reports that will be produced are as follows: statewide aggregate data; population-based county groups; and county-specific data. These reports help meet the intent of the Legislature, as stated in Welfare and Institutions Code Section 14707.5, to develop a performance outcomes system for Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) mental health services that will improve outcomes at the individual, program, and system levels and inform fiscal decision-making related to the purchase of services. This reporting effort is part of the implementation of a performance outcomes system for Medi- Cal Specialty Mental Health Services (SMHS) for children and youth.

Since 2012 DHCS has worked with several groups of stakeholders to create a structure for reporting, to develop the Performance Measurement Paradigm, and to develop indicators and measures. The Performance Outcomes System will be used to evaluate the domains of access, engagement, service appropriateness to need, service effectiveness, linkages, cost effectiveness and satisfaction.  Further information on the Performance Measures System implementation is available on the DHCS website.  Documents posted include the relevant legislation, plans submitted to the Legislature, and handouts for meetings with the Stakeholder Advisory Committee back to the first meeting in 2012.  To obtain this information go to:
http://www.dhcs.ca.gov/provgovpart/pos/Pages/default.aspx

## Purpose and Overview

These county-specific reports provide updated information on the initial indicators that were developed for the Performance Outcomes System and reported on at the statewide aggregate level in February 2015; they help establish a foundation for on-going reporting. DHCS plans to move to annual reporting of this data for the Performance Outcomes System.

The first series of charts and tables focus on the demographics of children and youth under 21 who are receiving SMH' based on approved claims for Medi-Cal eligible beneficiaries. Specifically, this includes demographics tables of this population by age, gender, and race/ethnicity. Two types of penetration information are provided. Both penetration rates tables are also broken out by demographic characteristics. Utilization of services data are shown in terms of dollars, as well as by service, in time increments. The snapshot table provides a point-in-time view of children/youth arriving, exiting, and continuing services over a two-year period. The time to step down table provides a view over the past four years of the time to step-down services following inpatient discharge.

Where possible, the reports provide trend information by displaying information for four Fiscal Years (FY).  A FY is from July 1st to June 30th.

Utilization of services reports are shown in terms of dollars, as well as by service in time increments. The snapshot report provides a point-in-time view of children arriving, exiting, and continuing services over a two-year period. The final report provides a view over the past four years of the time to step-down services (i.e., time to next contact after an inpatient discharge). *Note: The time to step-down report has a change in methodology from the first report produced in February 2015. In the initial report only outpatient services provided at least one day after the inpatient discharge were included in the calculations.  On subsequent reports, any outpatient service that occurs on or after the inpatient discharge is included in the analysis.*

## Definitions

**Population -** Beneficiaries with approved services adjudicated through the Short Doyle/Medi-Cal II claiming system that were:

• Age 20 or younger during the approved date of service on the claim.

**Data Sources -**
•Short-Doyle/Medi-Cal II (SD/MC II) claims with dates of service in FY 12/13 through FY 15/16.
• Medi-Cal Eligibility Data System (MEDS) data from the Management Information System/Decision Support System (MIS/DSS) FY 12/13 through FY15/16.

**Additional Information**

The **Measures Catalog** is the companion document for these reports and provides the methodology and definitions for the measures. Each measure is defined and the numerator and denominator used to develop the metrics are provided with relevant notes and additional references. The Measures Catalog may be found at:

http://www.dhcs.ca.gov/provgovpart/pos/Pages/Performance-Outcomes-System-Reports-and-Measures-Catalog.aspx

**Note on Privacy:**

The Health Insurance Portability and Accountability Act (HIPAA) and Code of Federal Regulations (CFR) 42 rules protect most individually identifiable health information in any form or medium, medium, whether electronic, on paper, or oral.  DHCS has strict rules in place to protect the identification of individuals in public reports.  A "Public Aggregate Reporting – DHCS Business Reports" process has been established to maintain confidentiality of client Personal Information.  The Performance Outcomes System complies with Federal and State privacy laws.  Thus, the POS must appropriately and accurately de-identify data for public reporting.  Due to privacy concerns, some cells in this report may have been suppressed to comply with state and federal rules. When necessary, this data is represented as follows:  1) Data that is missing is indicated as "-"   2) Data that has been suppressed due to privacy concerns is indicated as "^".

**Report Interpretation**

*County-specific findings may be interpreted alongside the POS statewide and population-based report findings.

*The *penetration rates* reported here were calculated using a different methodology than that used by the External Quality Review Organization (EQRO). The differences in methodology make comparison between the POS penetration rates and the EQRO penetration rates not appropriate or useful. The POS methodology for calculating penetration rates was selected because it is easier to compute, more straightforward to interpret, and is in use by other states and counties. For the POS, the penetration rate is calculated by taking the total number of youth who received X number of SMHS (1 or 5 for POS) in a FY and dividing that by the total number of Medi-Cal eligible youth for that FY. This methodology results in lower penetration rates as compared to the EQRO rates, but it does so across the board so that all counties and the state will be similarly impacted.

*The *snapshot* report provides a point-in-time look at children and youth's movement through the SMHS system. The report uses five general categories to classify if a youth is entering, exiting, continuing services, or a combination of these categories (e.g., arriving and exiting).  Eventually the snapshot data will be used along with measures of service effectiveness to identify whether youth are improving as a result of receiving services from the time they first arrived in the system to when they exit the system. This methodology was adapted from the California Mental Health and Substance Use System Needs Assessment (2012).  More information on the original methodology can be found here: http://www.dhcs.ca.gov/provgovpart/pos/Pages/Performance-Outcomes-System-Reports-and-Measures-Catalog.aspx

*The psychiatric emergency services/hospital data reported on in the *time to step-down services* report includes data from Short Doyle/Medi-Cal II claims data and fee-for-service data. In the future this report will incorporate other outpatient and inpatient Medi-Cal SMHS' billed through the Managed Care healthcare delivery systems.  Currently, the number of days is capped at 365 days (to mitigate the impact of extreme statistical anomalies) when calculating the mean and max for time between discharge and step down service. This methodology will be updated in the next reporting cycle.  Additionally, county specific and population-based reports are based off of the county of the hospital the patient is discharged from and whom has been attributed the time to next service in days used in the calculations for this indicator.

**Please contact cmhpos@dhcs.ca.gov for any questions regarding this report.**

## Demographics Report: Unique Count of Children and Youth Receiving SMHS by Fiscal Year
## Madera County as of August 3, 2017

| SFY | Unique Count Receiving SMHS* | Year-Over-Year Percentage Change | Unique Count of Medi-Cal Eligibles | Year-Over-Year Percentage Change |
|---|---|---|---|---|
| FY 12-13 | 751 | | 32,928 | |
| FY 13-14 | 899 | 19.7% | 35,141 | 6.7% |
| FY 14-15 | 1,187 | 32.0% | 36,621 | 4.2% |
| FY 15-16 | 1,214 | 2.3% | 37,833 | 3.3% |
| Compound Annual Growth Rate SFY** | | 17.4% | | 4.7% |

*SMHS = Specialty Mental Health Services.  See Measures Catalog for more detailed information.

**SFY = State Fiscal Year which is July 1 through June 30.

## Snapshot Report: Unique Count of Children and Youth Receiving SMHS
## Arriving, Exiting, and with Service Continuance by Fiscal Year
## Madera County as of August 3, 2017

| Category | Description (Please refer to the Measures Catalog for more detailed descriptions on all Performance Outcomes System measures.) |
|---|---|
| Arrivals | Children/Youth that did not receive any SMHS within 3 months of their first date of service in the Fiscal Year. |
| Service Continuance | Children/Youth receiving continuous services with no breaks in service greater than 90 days for a period of at least 2 years (>= 2 YR) or a period of 1 to 2 years (< 2 YR). |
| Exiting | Children/Youth that did not receive any SMHS within 3 months after their last date of service in the Fiscal Year. |
| Arriving & Exiting | A distinct category in which children/youth met both the criteria for **Arrivals** and **Exiting** above for the fiscal year. |
| Service Continuance & Exiting | A distinct category in which Children/Youth had at least 2 years of Service Continuance going into the Fiscal Year and then Exited within the same Fiscal Year. |

| Service Fiscal Year | Arrivals Count | Arrivals % | Service Continuance (>= 2 YR) Count | Service Continuance (>= 2 YR) % | Service Continuance (<2 YR) Count | Service Continuance (< 2 YR) % | Exiting Count | Exiting % | Arriving & Exiting Count | Arriving & Exiting % | Service Continuance (>= 2 YR) & Exiting Count | Service Continuance (>= 2 YR) and Exiting % | Total Count | Total % |
