August 9, 2016

The Child Health and Disability Prevention (CHDP) program provides fee-for-service, well child health assessments to Medi-Cal children and youth pursuant to the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) benefit of the Medi-Cal program.

Effective for dates of service on or after July 1, 2016, the American Academy of Pediatrics (AAP) Bright Futures periodicity schedule for fee-for-service, well-child health assessments is implemented for CHDP. See both the [CHDP Bright Futures Schedule for Health Assessments by Age Groups](#) and [CHDP/EPSDT Periodicity Schedule for Dental Referral by Age](#) for guidelines

The information on the health assessment periodicity schedule being released supersedes the *CHDP Periodicity Schedule for Health Assessment Requirements by Age Groups* on the Medi-Cal website and in the Appendix of the CHDP provider manual. The information on the dental periodicity schedule being released supersedes any dental periodicity schedule dated prior to 2016.

Under the Bright Futures health assessment periodicity schedule, 14 additional health assessments will be added to the 15 health assessments presently reimbursable for children and youth from birth to age 21.

Claims for the additional assessments shown below should be billed as Medically Necessary Interperiodic Health Assessments (MNIHAs) on the CHDP *Confidential Screening/Billing Report* (PM 160) claim form.

AGE	By 1 mo	30 mo	5 y	7 y	8 y	10 y

Provider types who use the *Confidential Screening/Billing Report* (PM 160 Information Only) for reporting purposes also should follow the preceding instructions for reporting the 14 additional assessments.

This policy will be released in the provider manual in a future *CHDP Update* bulletin.
