

**ABX 1 -1 Stakeholder Comments/Questions
(Updated July 19, 2016)**

Reporting QTR	Assigned Reference Number	Organization	Date Initiated	Document Reference (Section)	Page	Stakeholder Question	Assigned	Response	Response Date
Q4 2015	1	Maternal and Child Health Access (MCHA)	6/21/2016	Applicant Demographics	6	List data sources and methods described and in related sections throughout the report, please add "Transitions from Medi-Cal to APTCs".	DHCS/ Covered CA		
Q4 2015	2	Maternal and Child Health Access (MCHA)	6/20/2016	Applications Received	6	The count of applications includes transition from APTC to Medi-Cal" - why isn't transition from Medi-Cal to APTC included? Can it be in the future?	DHCS/ Covered CA		
Q4 2015	3	Unknown	6/20/2016		40	Doesn't DHCS know how many cases are due for renewal regardless of SAWS renewal procedures or capacity? Shouldn't the number of cases due for renewal in the reporting period be close to 50% of the Medi-Cal population (minus the mega-mandatory aid codes that do not have to do the same Medi-Cal renewal process)?	DHCS		
Q4 2015	4	Western Center on Law & Poverty (WCLP)	6/20/2016		48	Are the decreases in the SSI and CalWORKS categories consistent with pre-ACA numbers?	DHCS		
Q4 2015	5	Western Center on Law & Poverty (WCLP)	6/20/2016	Renewals		1st bullet point is the 81% from the last reporting period the total number then as all Medi-Cal renewals were not processed in the previous report? If so, very helpful update and please do the same going forward.	DHCS		
Q4 2015	6	National Health Law Program (NHeLP)	6/20/2016	Renewals		Can future reports breakout how many Medi-Cal beneficiaries were renewed via ex parte review?	DHCS		
Q4 2015	7	Maternal and Child Health Access (MCHA)	6/20/2016	Eligible Individuals Demographics		Please add appeals data for cases involving MCAP, however originated, e.g., as a Cov CA appeal by a pregnant applicant	DHCS		
Q4 2015	8	National Health Law Program (NHeLP)	6/20/2016	Overview		The number defaulted into a Medi-Cal managed care plan is decreased dramatically in the last year (particularly from Q4 2014) - why is this?	DHCS
