Purpose and Scope

This document describes the contents of the CalHEERS Feature Release 15.3. Any known issues are described together with key features of the release contents, alternate procedures, and actions required.

Key New Features

The following summarizes the new features included in this release.

CALSTARS Interface

Ref ID	Type	Previous Design/Problem	New Functionality In this Release	Pages Impacted
2952	Change Request	This interface did not previously exist.	An interface has been created from CalHEERS to CALSTARS in order to report general ledger information from the state health benefits exchange to the state treasurer's office. The business flow will run parallel to that of CalHEERS reporting to the State Controller's Office. The trigger of this event is the daily transaction from ABE, recording all changes at the payee (contract) level. Reporting detail will entail all new entries to Accounts Receivable and Accounts Payable at the lowest level (AR at the payer level and AP at the payee level). No data will	NA

			come back from CALSTARS. The daily interface file will consist of a scheduled daily push to the required data entry point of CALSTARS. The format of this file will be in the required format that CALSTARS has published.	

Key System Updates

The following summarizes the modified features included in this release.

Ref ID	Type	Previous Design/Problem	Modified Functionality In this Release	Pages Impacted

Pregnant Women Change in Circumstance

Ref ID	Type	Previous Design/Problem	Modified Functionality In this Release	Pages Impacted
10195	Change Request	Previous design moved beneficiaries from aid code M1, M2, M3, and M4 (adult, parent, and caretaker relatives) to aid codes M9, M7, M0, and M8 (pregnant women) due to the beneficiary reporting a pregnancy. In other words, upon report of change in circumstance of pregnancy, beneficiaries were moving from full scope Medi-Cal coverage to limited scope pregnancy-related services.	Beneficiaries in aid codes M1, M2, M3, and M4 (adult, parent, and caretaker relatives) remain in the same aid codes, and retain eligibility under these existing aid codes when pregnancy is reported as a change of circumstance, if the beneficiary otherwise remains eligible for the coverage group (i.e., continues to meet income, family size, and citizenship/immigration criteria for the coverage group). In other words, upon report of change in circumstance of pregnancy, beneficiaries retain full scope Medi-Cal coverage, as long as they meet all other requirements.	NA

Verify Lawful Presence & New Dropdowns

| 6197 (3335) | Change Request | Version 32.1 of the Verify Lawful Presence (VLP) service did not include the following functionalities:

• A service call to the FedHub did not return verified 5 year bar information, instead it returned "not applicable" indicators for "5 year bar apply" and "5 year is met" data elements; therefore, the system did not distinguish if the immigration was subject to the 5 year bar requirement, or if the requirement had been met.
• The *Household Members* Page did not include or have additional values for the following:
• Updates on the **What is the Country of Issuance for this passport?** dropdown.
• **Document Type** dropdown list did not include the following values:
  - **Other document with an Alien Number**
  - **Other document with an I94 Number**
  - **Machine Readable Immigrant Visa (with Temporary I-551 Language)**
  - **Arrival Departure Record in Unexpired Foreign Passport (I-94)**
  - **Unexpired Foreign Passport**
• The *Personal Verifications* page displayed an **Immigration Status** row, and | Version 33 of the VLP service includes the following functionalities:

1. A service call to the FedHub returns verified 5 year bar information from the FedHub for lawful presence and qualified non-citizen. The system now distinguishes if the immigrant is subject to the 5 year bar requirement, or if the requirement has been met.
2. The *Household Members* page now includes:
• Updates on the **What is the Country of Issuance for this passport?** dropdown.
• **Document Type** dropdown now includes the following values:
  - **Other document with an Alien Number**
  - **Other document with an I94 Number**
  - **Machine Readable Immigrant Visa (with Temporary I-551 Language)**
  - **Arrival Departure Record in Unexpired Foreign Passport (I-94)**
  - **Unexpired Foreign Passport** | • Household Members

Personal Verifications |

		did not display the **Five Year Bar Met or Does Not Apply** row, or the **Qualified Non-Citizen** row.	3. The *Personal Verifications* page now displays a **Lawful Presence** row, **Five Year Bar Met or Does Not Apply** row, and **Qualified Non-Citizen** row.	

MEC Table Update

11389	Change Request	The Minimum Essential Coverage (MEC) table did not match current aid code requirements in order to validate Individuals with or without MEC.	The MEC table has been updated to match current aid code requirements in order to validate Individuals with or without MEC.	NA

Open Enrollment 2015 - Single Streamlined Application/Online Application Updates

6933	Change Request	Prior to open enrollment 2015, the online application contained the following: • Naturalization questions were asked that were difficult for Consumer to answer and that did not directly impact eligibility. • Data elements were collected that were not used to determine eligibility. • Dropdown list options included ineligible reasons for no SSN from an eligibility perspective. • Messaging did not exist; could allow Users to create incorrect Tax Filing Households. • Did not capture certain types of MEC that could permit a user to enroll in CCP or eventually APTC. • Asked for enrollment status that was not relevant to MEC status of ESI plan. Asked for monthly amount rather than	The purpose of this change request is to document additions and modifications to the single streamlined application within CalHEERS. This is the parent change request, and encompasses the requirements and design components associated with multiple ancillary change requests identified as priorities for 2015 by the partner organizations. Outlined below are the change requests that have been withdrawn and linked to this as the parent CR: • CR 4628 - Removing Naturalization Question per CMS request/instruction (*Household Members* page) • CR 8983 - Remove prior year tax information - simplifies tax info	• Household Members • Tax Information • Start Here • Health Care Information • Income pages • Program Eligibility Summary by Person • Demographic Information • Household Primary Contact • Report a Change Summary • Contact Information All pages

		amount and frequency of payment. • Additional income and deduction types were not available for use, making some income types more difficult to enter and differentiate. • Allowed users to create incorrect Medi-Cal Households without messaging about the consequences of that structure. • No way to change application type from unsubsidized to subsidized without terminating participation. Contained little information about the consequences of applying for an unsubsidized plan. • No way to collect Projected Annual Income at the individual level for the benefit year. • Asked the "expected to file taxes" question only for dependents, and did not apply countable income in some scenarios to non-dependent non-tax-filers. • Lacked clarity about the name information that should be provided by Consumer. • The **Cancel all Changes** link previously did not redirect User to landing page on click. • Messaging and validation did not exist; could allow Users to create incorrect Tax Filing Households. • Did not deny CCP to Medicare recipients in unsubsidized applications.	collection by removing prior year questions that do not impact Eligibility determination (*Tax Information* page) • CR 3134 - Child under 1 (updates the dropdown wording for a child under 1 who cannot provide an SSN) and implements new rules to govern their eligibility. Updates other ATIN and ITIN collection rules. (*Household Members* page) • CR 3785 - Tax Dependent Messaging - Alerts Non-custodial parent applicant that their claimed N.C. child cannot receive Medi-Cal on their application (*Tax Information* page) • CR 6540 - Alerts some MEC recipients that they may qualify for APTC if they don't keep their coverage, based on direction from CC Legal. (*Health Care Information* page) • CR 8984 - Updates Employer Sponsored Insurance questions to ask about lowest cost available plans instead of currently enrolled plan. (*Health Care Information* page) • CR 5254 – Update Income collection including AI/AN and deduction types (Income pages) • CR 4661 - Collect Tax information for the entire tax household by modifying the drop-downs	

| | | • Did not provide clarity about formatting for DOB and SSN.
• ~~CC didn't have a way to embed links to page-specific FAQs within CalHEERS.~~ | to ensure continuity of household composition (*Tax Information* page)
• CR 9945 - A user can now change their application type from an unsubsidized application to subsidized application prior to submitting an unsubsidized application or after submitting an unsubsidized application. If an application type is changed from an unsubsidized application to a subsidized application the user will have to complete additional questions prior to submitting the subsidized application. (*Start Here* page)
• CR 3161 - Implements the collection of the Projected Annual Income when differences occur when reported as individual rather than household income (Income pages)
• CR 9947 - Changes the display of the "expected to file taxes" question to ask all applicants, not just dependents (*Tax Information* page)
• CR 6597 - Updates messaging on the HH Primary Contact and Member pages to improve collection of name information to ensure accurate collection and reporting to SSA (*Household Primary Contact* page & *Household* | |

| | | | *Members* page)
• CR 6601 - Updates the **Cancel all Changes** link on the *Report a Change Summary* page to navigate the User to the *Individual homepage* (*Report a Change Summary* page)
• CR 7384 - Ensures that HH is not also claimed as a dependent by restricting contradictory tax filing status (*Tax Information* page)
• CR 10906 - Require the question "Does this person receive Medicare benefits?" be displayed for all applicants, subsidized and unsubsidized (*Health Care Information* page)
• CR 10964 - Update SSN and DOB collection across the Application (*Household Primary Contact* page and *Household Members* page)
• ~~CR 10966 - Contextual Help (All pages)~~ | |

SAWS eHIT Interface Update

| 7381 | Change Request | • SAWS received daily error reports on the following business day.
• Eligibility Evaluation reasons currently used in portal were not sent, so the EW did not have information as to why someone resulted in pending, ineligible, etc.
• Workarounds were being used as the 3.0 eHIT Schema updates were not available.
• Current portal system and eHIT were out of sync.
• VLP and eHIT were out of | DHCS has requested eHIT schema updates. The updates will enhance the existing interface and increase the maturity of the eHIT functionality. The purpose of this CR is to develop the Design Artifacts (e.g., BSD), and Build Artifacts (e.g., IDD) for the requested 3.0 eHIT updates. Additionally, determine the appropriate releases for the 3.0 eHIT Schema updates; child CRS | NA |

| | | sync. | will be created as an outcome. 3.0 eHIT updates include:
• Eligibility workers now receive a near real-time response when an EDR results in error or is cancelled.
• Eligibility Evaluation reasons currently used in portal are now sent, so the EW has information as to why someone results in pending, ineligible, etc.
• Workarounds are no longer being used as the 3.0 eHIT Schema updates are now available.
• Current portal system and eHIT are now in sync.
• VLP and eHIT are now in sync. | |

Per Member Per Month (PMPM) Billing Detail

| 11883 | Change Request | Previously, Carrier invoices only listed the Household Case ID and the Subscriber ID. As a result, a household with many members was only a single line item on the invoice. The Carriers had concerns with the invoices as generated and asked that each member within a household be listed separately on the bill. | This CR expands the current NOD22 output to include identifying information for members receiving benefits (to the dependent level) for every household case maintained in ABE.

Billing carriers need enrollments, net of cancellations. Using this methodology results in detailed information as supporting detail for the purpose of billing the Carriers monthly for their participation in the exchange. | NA |

Exclude Mixed Cases from CEE Accounts Payable (AP)

| 12323 | Change Request | Case ID was not on the original AP pending report. Case ID is critical to the matching exercise needed to identify "mixed cases" on the report. Trying to match via name leads to inaccuracies. | Covered California pays Certified Enrollment Entities (CEE) based upon the households the CEE assists. Mixed cases (Qualified Health Plans + Medi-Cal households) were not to be paid out of this process. The existence of the Medi-Cal enrollment counselors has changed the requirements to exclude Medi-Cal assisted enrollments from ABE so as not to co-mingle funds. The AP Pending report will continue to be produced by the system with Mixed Households present in the report. This CR will facilitate the manual removal of Mixed Households from the AP Pending report after it is generated each month. | NA |

Data Warehouse

16621	Defect Fix	Data that was being extracted and loaded as part of a step in the Extract, Transform, Load (ETL) logic was not consistent with how the rest of the ETLs were implemented, and was causing a performance issue.	The extraction and loading of the data in this ETL is now consistent with the rest of the ETL's implemented.	NA
16640	Defect Fix	Changes to an Individual's address information was not being reflected in the data warehouse.	Changes made to an Individual's address is now being captured correctly in the data warehouse.	NA
18307	Defect Fix	Application data that was updated after it was loaded into the data warehouse was not displayed correctly in the Enrollment subject area in OBIEE.	Application data is now being displayed correctly in the Enrollment subject area in OBIEE.	NA
18338	Defect Fix	A subset of applications was not associated correctly with their enrollment information.	The impacted applications are now correctly being associated with their enrollment information.	NA
18407	Defect Fix	The subscriber information was not displayed correctly in the Enrollment subject area in OBIEE.	The subscriber information displays correctly in the Enrollment subject area.	NA
18736	Defect Fix	The previous year's determination displayed incorrectly when a determination for the current year was made.	The previous year and current year's determination display correctly.	NA

18743	Defect Fix	The coverage year on the "DM_SUBMIT_INDV_F.COVRG_YR" table was not being updated correctly.	The coverage year on this table is now correctly being updated.	NA
19022	Defect Fix	When an Individual did not have an SSN value in AHBX, the flag was being updated inconsistently with either N or Null.	The SSN flag fields are now being updated to say N for Individuals that do not have an SSN populated in AHBX.	NA
19023	Defect Fix	When a Consumer had selected multiple ethnicities on their application it was not accurately coming through to the DW as 'Mixed'.	The Mixed value for the Ethnicity is displayed in the data warehouse for the relevant Consumers.	NA
19024	Defect Fix	The Relation to Head of Household field was previously displaying null values.	This field is no longer displaying null values and now correctly displays the relation to head of household (parent, son/daughter, etc.).	NA
19438	Defect Fix	When an Individual had multiple eligibility determinations for multiple timeframes that did not overlap, the eligibility determinations were not being loaded accurately into the data warehouse.	The multiple eligibility determinations are now being loaded accurately into the data warehouse.	NA
19439	Defect Fix	The pending application record in the data warehouse was not being correctly end dated at the time the application was submitted on a different day or withdrawn. Per design if the application was pending and then submitted within the same day, only the latest activity would be loaded into the data warehouse, which in this case, would be the application submission date.	The pending application is correctly end dated at the time the application is submitted / withdrawn.	NA
19441	Defect Fix	Application and enrollment information were not being correctly associated in the data warehouse.	Application and enrollment information are now being associated correctly in the data warehouse.	NA

19442	Defect Fix	The delegation of the CEC was not correctly being displayed against the application in the Assister subject area in OBIEE.	The delegation of the CEC is correctly being displayed.	NA
19443	Defect Fix	When multiple self-employment incomes were populated in AHBX these were not getting loaded into the DW correctly.	Multiple self-employment incomes populated in AHBX are now being loaded into the DW correctly.	NA
19444	Defect Fix	In the event that an Individual exists on two cases, if the demographic was being updated on one of them it was not being reflected in the data warehouse.	If an Individual that exists on two cases updates their demographic information on one of them, it is being reflected in the data warehouse.	NA
19452	Defect Fix	Records statistics (example: source to DW counts/percentage type discrepancies) were not able to generate automatically into the error re-processing table.	Reporting can now be automated to generate statistics about the records going into the error re-processing table.	NA
19508	Defect Fix	Enrollment records were being sent to the error records table and not successfully loaded into the data warehouse.	Enrollment records are now able to process and load successfully into the data warehouse.	NA
19778	Defect Fix	Application assisted type records were being sent to the error records table and not successfully loaded into the data warehouse.	Application assisted type records are now able to process and load successfully into the data warehouse.	NA
19819	Defect Fix	Enrollee records were being sent to the error records table and not successfully loaded into the data warehouse.	Enrollee records are now able to process and load successfully into the data warehouse.	NA
19914	Defect Fix	The error re-processing logic was previously passing through the maximum modified date instead of the system date.	The system date is now getting passed.	NA
19944	Defect Fix	Information for a subset of applications was not getting loaded into the data warehouse.	Information for the subset of applications is being loaded into the data warehouse.	NA
20044	Defect Fix	Two issues were being caused by this defect: 1. Information of the Enrollee was not correctly being	Both of the issues have been resolved such that both the correct Enrollee information is now	NA

Alternate Procedure 141: No Validation Error Message for Invalid Termination Date on the *Health Care Information* Page

Users Impacted	SCRs/Individuals

Area Impacted	Individual Portal
What's Happening Now	When a User, who indicated they currently have affordable, minimum standard health insurance, entered an invalid date (e.g. 06/31/2015) into the **What is the termination date, if applicable, of your current or offered coverage?** field on the *Health Care Information* page and clicked on the **Continue** button, they were able to continue to the *Optional Information* page.
Actions to Take	If the application is in-Progress: 1. Return to the *Health Care Information* page. 2. Enter a valid termination date into the **What is the termination date, if applicable, of your current or offered coverage?** field. 3. Click on the **Continue** button to proceed with the application. If the application is Submitted: 1. From the *Individual* homepage, click on the **Report a Change** button. 2. Enter a valid termination date on the *Health Care Information* page. 3. Click on the **Continue** button to proceed with the change report.

Alternate Procedure 142: During Report a Change, Validation Error Displays on the *Household Members* Page for New Member

Users Impacted	SCRs/Individuals
Area Impacted	Individual Portal
What's Happening Now	When processing a Report a Change to add a household member and upon completing entry of new member information on the *Household Members* page and clicking on the **Continue** button, CalHEERS displays the following validation error to User: "**The update you are trying to do has conflicted with an update made by another user….**"
Actions to Take	When receiving the validation error message that says, "**The update you are trying to do has conflicted with an update made by another user. Please review your entry and try again…**", click on the **Continue** button again. CalHEERS will allow the User to bypass the error message and navigate them to the *Relationships* page.

Alternate Procedure 144: Incorrect Validation Error Message for Date of Birth on the *Household Members* Page

Users Impacted	Individuals, Admins
Area Impacted	Individual Portal
What's Happening Now	On the *Household Members* page, when Users enter a date of birth in an incorrect format (mm/dd) and click on the **Continue** button, a validation error message displays that says, "**Date Of Birth: Cannot be in the future**" instead of saying, "**Enter Date of Birth in mm/dd/yyyy format**".
Actions to Take	1. Enter a date of birth in the correct format (mm/dd/yyyy). 2. Click on the **Continue** button.
SCR/Defect	Defect 20132
Planned Release	TBD

Alternate Procedure 145: Issue with Calendar Widget on *User Information* Page

Users Impacted	Individuals
Area Impacted	Individual Portal
What's Happening Now	During account creation, on the *User Information* page, when the User clicks on the calendar widget next to the **Date of Birth** field and selects the date before selecting the year, the calendar widget closes and the **Date of Birth** field is auto-filled with the current year (2015).
Actions to Take	1. Click on the calendar widget. 2. First, select the year from the dropdown list. 3. Next, select the month from the dropdown list. 4. Last, select the day from the calendar.

Version 3

SCR/Defect	Defect 20275
Planned Release	TBD

Alternate Procedure 146: Error Message Displays While Trying To Add One-time Lump Sum Amount on the Other Income Page

Users Impacted	Individuals or Admins assisting with the Individual Application
Area Impacted	Individual Portal
What's Happening Now	While adding a new **One-time Lump Sum** on the *Other Income* page, if the User does not enter the **One-time Lump Sum Pay Date** (which is mandatory, however it does not show the red asterisk [*] indicating it is a required field), then the User gets an error message saying, "**Date: The expected format is MM/DD/YYYY format**". However, after the error message gets displayed, the **One-time Lump Sum Pay Date** is not visible on the page, which is why the error message keeps getting displayed to user.
Actions to Take	If you see the error "**Date: The expected format is MM/DD/YYYY format**" for one time lump sum income on the *Other Income* page, follow the below steps: 1. Click on the **Cancel** button which takes the user back to *Other Income* page. 2. Click on the **Add Income** button. 3. Fill in all the mandatory fields (Select **One-time Lump Sum** from the **How often** dropdown list). 4. Enter **One-time Lump Sum Pay Date** and click on the **OK** button. **NOTE**: Do not enter a date in the **First Date Paid** or **Last Date Paid** fields since this is a one-time lump sum. Only the **One-time Lump Sum Pay Date** field should be completed. The User is now able to go ahead to the next page with the income added.

**Alternate Procedure 143: Page Navigation Issue After Declining Dental Plan**

Version 3

Users Impacted	Consumers (Individuals)
Area Impacted	Plan and Enrollment Management
What's Happening Now	After Users decline to choose a dental plan, they are navigated to the *Household Enrollment Introduction* page instead of the *Household Enrollment Summary* page, which allows Users to click on the **Done** button and navigates them to their *Individual homepage*.
Actions to Take	From the *Household Enrollment Introduction* page, click on the Covered California logo to navigate to the *Individual homepage*.

Alternate Procedure 147: *Household Enrollment Introduction* Page Displays "You are not eligible to enroll at this time…No plan has been selected" for an Enrolled Consumer

Users Impacted	SCRs, Admins
Area Impacted	Plan and Enrollment Management
What's Happening Now	When a Consumer submits an application during special enrollment and is found to be conditionally eligible because they need to submit proof of lawful presence, proceeds to select and pay for a plan, submits proof of lawful presence, and then an SCR/Admin passes their lawful presence and redetermines eligibility so that their eligibility status is now eligible, the *Household Enrollment Introduction* page displays "**You are not eligible to enroll at this time…No plan has been selected**", even though the Consumer is already enrolled.
Actions to Take	1. From the *Household Enrollment Introduction* page, click on the **Consumer Home** button. 2. Click on the **SUMMARY** application progress track checkbox. 3. From the *Plan Enrollment Summary by Program* page, User can see that the Consumer is enrolled.

Alternate Procedure 148: Filter For Conditional Eligible Does Not Function

Users Impacted	Certified Enrollment Counselors and Agents
Area Impacted	Enrollment Assistance
What's Happening Now	When the Eligibility Status is filtered on "Conditional Eligible", the page displays "No matching records found".
Actions to Take	Select the **Individuals** tab and then the **Active** link. All the active records for Individuals will display. Sort on the **Eligibility Status** column on the *Active Delegations* page, which will bring all the Contingent Eligible to the top of the list.
