In the event that assets of the estate have been distributed, the director shall be entitled to a claim against the distributee or distributees to the full extent of the director's claim, or each distributee's share of the distributed assets, whichever is less. The director's entitlement against distributees shall include interest rate of interest equal to that earned in the Pooled Money Investment Fund from the date of distribution or the date of presenting the claim by the director, whichever is later, plus other accruing costs as in the case of other executions.

(d) Failure to comply with the provisions of this section shall not affect the validity of any proceeding under this division.

Section 14009.5 of the Welfare and Institutions Code is amended to read:

14009.5 Notwithstanding any other provisions of this chapter, when a decedent has received health care services under this chapter or Chapter 8 (commencing with Section 14200) the department may claim against the estate of the decedent, or against any recipient of the property of that decedent by distribution or survival an amount equal to the payments for the health care services received. The department may not claim where the eligible person was under 65 when services were received, or where there is a surviving spouse, or where there is a surviving child who is under age 21 or who is blind or permanently and totally disabled, within the meaning of the Social Security Act.

The department may waive its claim, in whole or in part, if it determines that enforcement of the claim would result in substantial hardship to other dependents of the individual against whose estate the claim exists.
