To: All County Welfare Directors

Letter No. 83-83

RSDI/UI/DI REPORTS

All County Welfare Directors (ACWD) Letter No. 83-23 informed you that the Department of Health Services (DHS) was discontinuing the production of the Beneficiary Data Exchange (BENDEX) Report and that you would be receiving Title II (Social Security) benefit information for Medi-Cal Only beneficiaries in the Retirement, Survivors, and Disability Insurance (RSDI) Report, published by the Department of Social Services. This report is designed to assist counties in identifying and verifying these benefit amounts to more accurately determine Medi-Cal Eligibility and share-of-cost amounts. It is anticipated that the use of this report will reduce the number of Quality Control errors, thus lowering the Medi-Cal dollar error rates. This can mitigate the loss of federal financial dollars due to sanctions based on dollar error rates. You received your first RSDI Report in March, 1983. Commencing with the April RSDI Report, Unemployment Insurance (UI) and Disability Insurance (DI) benefit information (as provided by the Employment Development Department) was included to form a combined RSDI/UI/DI Report.

This letter will (1) provide further instructions for processing the information, (2) provide procedures for handling discrepancies between benefit amounts listed on the report and the amounts reported by beneficiaries, and (3) clarify the use of the report.

1. Instructions

Instructions for interpreting and utilizing the RSDI/UI/DI information are included in Attachment A. Additionally, definitions of Payment Status Codes and Communication Codes are included. All reports should be filed in the case record.

2. Procedures for Handling Discrepancies

The report consists of individual listings and provides information concerning RSDI, UI, or DI benefits. It is provided so that counties can verify benefit amounts as reported by the beneficiary. If the amount listed on the report differs from the amount reported by the beneficiary, the county must contact the beneficiary to verify the correct current benefit amount.

- A. If it is determined that the amount listed in the case record is incorrect, then the corrected benefit amount must be utilized to determine if a share of cost should be established or changed in accordance with Title 22, CAC, Sections 50653.3 and 50653.5.

- B. If a discrepancy exists, the county is to determine whether a potential overpayment has occurred in accordance with Title 22, CAC, Section 50781. If a potential overpayment has occurred, then the appropriate referral should be completed as required by Title 22, CAC, Section 50783.

3. Clarifying RSDI Information

- A. It is important that you read and analyze the payment status and communication codes to properly utilize the RSDI information. The definitions for all the codes are included in the instructions in Attachment A. These definitions will give you information which may affect the individual's eligibility. For example:

Payment Status Code Messages

CP Beneficiary is currently receiving the benefit amount listed on the report.

D(x) Payment is "deferred." Beneficiary is entitled to the benefit amount listed on the report, but payment is being deferred due to the reason printed on the report. For example:

D2: RSDI payment deferred to recover an overpayment which resulted because of beneficiary's employment.

S(x) Payment is in "suspense". Beneficiary would be entitled to the benefit amount listed on the report but is not receiving the benefit due to the reason printed out. For example:

S2: RSDI benefits are currently in suspense because beneficiary is working and expects earnings in excess of annual allowable RSDI limits. Check to see if in fact the beneficiary is employed and is properly reporting the earned income.

NOTE - The condition that has created the deferral (D(x)) or suspension (S(x)) may be lifted and the individual may begin receiving the benefit. This should trigger a record informing you of this occurrence.

I(x) Benefits have been terminated. For example:

I1: Benefits have been terminated because beneficiary is deceased.

Communication Code Messages

It is important that communication codes be read in conjunction with the benefit amount listed on the report. Of particular interest are the following three codes:

DOB UNM -- Date of birth does not match person assigned to this SSN.

GIV UNM -- First name does not match person assigned to SSN.

SUR UNM -- Last name does not match person assigned to SSN.

If any one of these codes appears on the report, a \$0 amount will be listed even if the person is legitimately receiving an RSDI benefit. What happens is that the particular data item (as indicated by the code) of the state record does not match with SSA's record. Therefore, SSA does not pass back to the State any benefit information. In such cases, the county should continue to utilize the benefit amount reported by the beneficiary.

- B. We recognize that there were some cases where the benefit amount listed on the report was incorrect. We identified a specific programming error in the system and made the necessary changes which were reflected in the July report. In reviewing cases since the July change, we have found the benefit amounts listed on the report to be very accurate.
- C. There are a few records with the communication code of AD. We are currently discussing with SSA whether these amounts are accurate. Until further notice, you may put these listings aside. We apologize for the inconvenience and will send further instructions concerning these listings in the near future.

4. Evaluation

In order to evaluate the effectiveness of the RSDI/UI/DI Report, we will review the February and March 1984 reports. We are asking the counties to complete that attached survey form (Attachment B) and return the form by April 30, 1984 to:

Department of Health Services
Corrective Action Unit
714 P Street, Room 1692
Sacramento, CA 95814

This information will also be needed by DHS when next year's Corrective Action Plan is submitted to the Federal Government.

UI/DI PORTION OF THE RSDI REPORT

NOTE: Until additional programming is complete, the report title will not include the term "UI/DI" for the first few report months.

The first month's report of UI benefits will include all recipients that EDD shows are currently receiving UI. Thereafter, the report will show UI payments made:

- (1) to new recipients for the first month of public assistance eligibility,
- (2) to continuing recipients for the first time, and
- (3) to continuing recipients if there are any changes in payment to the recipient.

DI payment amounts will appear in the same basic format as the UI payments, however the data will be provided for every month benefit is received, whether or not any changes have occurred.

DSS has identified some initial minor problems with the UI/DI portion of the April report and will be correcting these as soon as possible. Your cooperation in continuing to use the report will be appreciated. The problem on the UI portion is:

NEW MONTHS BENEFITS.

We are providing two months' worth of data for UI recipients. If the recipient does not receive a check in the current month but had received one in the prior month, the system will report the prior month's check in the current month area. Therefore, it is important to watch the check date (7) to make sure you are not picking up old data when the current month budget computation is made.

To correct this will take extensive computer analysis and programming. Therefore, it could take some time to correct.

The problems on the DI portion are:

1. NAME. UNRECON DISB is printed in this area. Unreconciled disbursements are correct DI payments that are not yet shown on EDD files as having been reconciled or cashed. These payments are at least 7 to 10 days old when first printed on the report and will likely have been received by the DI recipient. They are usually the last one or two payments in the DI payment file. The data applies to the person indicated at the top of the report.
2. FIELD OFFICE. The DI field office is a three digit number. To determine the correct field office number place a "20" in front of the one digit number on the report or a "2" in front of the two digit numbers on the report, i.e., 7 should be 207, or 11 should be 211.

INSTRUCTIONS FOR INTERPRETING THE UI/DI FORMATS
ON THE REPORT OF RSDI/UI/DI (PVS 040-A)

The following is a listing of UI/DI report item descriptions. The numbers in parentheses are keyed to items on the attached sample report. Numbers in parentheses will not appear on the actual report.

UI BENEFITS

- (1) NAME (as reported by EDD): Since more than one person could be using an SSN, it is possible that this name could be different than the name reported by SSA or the name that comes from the public assistance case.
- (2) MAX BENEFIT AMOUNT: Total amount claimant could be paid for the duration of the UI claim.
- (3) WEEKLY BENEFIT AMOUNT: The amount of the benefits the claimant is entitled to receive per week throughout the duration of the claim. Payments are usually made every two weeks.
- (4) BALANCE: Divide the balance by the weekly benefit amount to get the maximum number of weeks remaining in the claim.
- (5) NEW MONTHS BENEFITS: Benefits with check dates in the month shown under "RECEIVED".
- (6) AMOUNT PAID: Amount of the check.
- (7) CHECK DATE: The check is typed or printed out and, in most cases, mailed by the EDD field office on this date. It may be used to estimate the date that the recipient would have received the check.
- (8) CHECK NUMBER: Indicates the number on the check. Form GEN 973 is used to request UI and DI check photocopies from EDD. If you submit a 973, attach a copy of the PVS 040-A to document the check number.
- (9) FIELD OFFICE: This is the number of the EDD field office where the UI or DI claim was filed. It is provided in case you must contact the field office to get clarification or additional information.
- (10) REPORTED EARNINGS: The amounts that UI claimants report to EDD. Earnings reduce UI payments.
- (11) OLD MONTHS BENEFITS: This information is provided because a check dated toward the end of the prior month may be received by the recipient in the new month.
